metalfabrics@gkd-group.com

Weaves: Tigris, Lago

Attachment: Woven-In-Bar with Eyebolts Top & Bottom

Architect: Johnson Architecture & Planning

Application: Safety and Security

Subsection: Enclosures

Location: Seattle, Washington

Market Segment: Civil

DESCRIPTION

The location of biotech firm Amgen warranted the construction of a walkway bridge for pedestrians. Designed as an access point but also intended to visibly point the way for visitors, Johnson Architecture clad the sides of the bridge with trapezoidal panels made of Tigris and Lago stainless steel mesh.
