The Madrid Tennis Center is a multifunctional complex. The façade of the centerpiece "Caja Magica" is another Perrault spectacular structure, clad with 230,000 ft<sup>2</sup> of GKD Escale metal fabric. The reflective façade reduces the dominance of the sports complex into its surroundings.

**Applications**

Solar Mesh  
 Transparent Metal Mesh Facade

**Metal Fabrics**

Escale 5 x 1  
 Escale 7 x 1

**System Components**
