Weaves: Omega 1510

Attachment: Extended Loops with Eyebolts

Architect: Dreyfuss and Blackford

Application: Facades, Solar Control

Location: Folsom, California

Market Segment: Corporate

DESCRIPTION

In addition to making a design statement, the architects sought a facade solution that would mitigate the relentless California sun. A stainless steel GKD mesh facade played a key role in effectively reducing the amount of solar radiation reaching the building, helping the project achieve LEED Platinum status.
