Weaves: Baltic
Attachment: Extended Loops with Eyebolts
Architect: Paul Andreu
Application: Facades, Interior
Subsection: Covering
Location: Beijing, China
Market Segment: Cultural

DESCRIPTION

More than 17,700 square feet of metal mesh that shimmers in shades of gold was developed by GKD for the National Grand Theater. Impressively cloaking the inner façade of the theater's main hall, a custom construction of Baltic stainless-steel mesh was also used to clad 123 pillars.
