Weaves: Lamelle

Attachment: Woven-In-Bar with Eyebolts Top & Bottom

Architect: Rodr guez & Rufin Arquitectos

Application: Interior

Subsection: Ceilings

Location: Santiago, Chile

Market Segment: Hospitality

DESCRIPTION

A curved ceiling made of Lamelle metal mesh adorns the Emilio Balthus restaurant in Santiago de Chile. Rodr guez & Rufin Arquitectos designed the interior of the restaurant so the ceiling would become the central element.
