Weaves: Omega Divergence PC, Omega 226

Attachment: Flat & #038; Angle Frame

Architect: Dominique Perrault Architecture

Application: Facades

Location: Luxembourg City, Luxembourg

Market Segment: Municipal

DESCRIPTION

Gold-anodized GKD aluminum fabric transforms these twin office towers. The architect required a lightweight material that could also be bent into a zigzag shape to offer maximum opaqueness from the outside. The 7,724 panels also reflect interesting light effects on the building's surroundings.
