**Weaves:** Omega 1500

**Attachment:** Flats with Clevis

**Architect:** Graham Downes Architecture and HCA

**Application:** Solar Control

**Location:** Las Vegas, Nevada

**Market Segment:** Corporate

## DESCRIPTION

The intense heat of the Vegas desert would have caused discomfort for visitors to Henderson Plaza, if not for GKD's sun shading metal fabric canopies. Because metal fabric provides natural ventilation, heat can escape from under the framed ceiling and visitors can stay cool while enjoying outside activities.
