Weaves: Escale 5x1

Attachment: Fusiomesh NG - Cable Mesh

Architect: Aedas

Application: Interior

Subsection: Ceilings

Location: Hong Kong, China

Market Segment: Transportation

DESCRIPTION

Per the design of the architects at Aedas, Escale 5x1 stainless steel mesh was used to clad the ceilings at the Hongkong Midfield terminal. The results are impressive: the metal mesh suspended ceiling is effectively framed with light at the upper end and blends harmoniously with the other materials used.
