Weaves: Omega 1510

Attachment: Fusiomesh NG

Architect: Ingenhoven Architects

Application: Facades, Safety and Security, Solar
Control

Subsection: Enclosures, Railing

Location: Heidelberg, Germany

Market Segment: Education

DESCRIPTION

This modern laboratory building enjoys unencumbered views through exterior walkways clad with GKD Omega 1510 stainless steel mesh with white-coated weft wires. The 104 panels provide fall guards on the balconies and protection from solar heat gain while still allowing daylight to flood the interiors.
