Weaves: Escale 7×1

Attachment: Flats with Clevis

Architect: Dominique Perrault Architecture

Application: Interior

Subsection: Covering

Location: Paris, France

Market Segment: Corporate

DESCRIPTION

Stainless steel metal mesh was used in the redesign and modernization of the interior, while the foyer was structured with ceiling-height architectural mesh room dividers. These mesh panels establish sight lines and direct the flow of visitors, while also providing safety features on the balustrades.
