metalfabrics@gkdusa.com

Weaves: Omega 1520

Attachment: Woven-In-Bar Hook Brackets &
Eyebolts

Architect: Sandrolini Architects

Application: Solar Control

Location: Fiesso d'Artico, Italy

Market Segment: Corporate

DESCRIPTION

Sandrolini architectural firm in Paris designed the new factory of luxury brand Louis Vuitton using Omega 1520 stainless steel mesh. A total of 114 individual metal mesh elements encase the four main facades of the building and are also fitted in the inner courtyard as horizontal solar protection elements.
