Weaves: Mediamesh V4xH5.0, Lamelle

Attachment: Flats with Clevis

Architect: COWI/LARSEN

Application: Communication, Interior

Subsection: Ceilings, Partitions

Location: Muscat, Oman

Market Segment: Transportation

DESCRIPTION

At Muscat International Airport, wall cladding made of GKD Lamelle fabric measuring 80 feet high visually enhances the retail area. Nearby, a 90-foot-high and 160-foot-wide Illumesh screen acts as a partition wall between two building segments.
