Weaves: Omega 1510

Attachment: Flats with Clevis

Architect: Port Authority of NY and NJ

Application: Communication, Safety and Security

Subsection: Etched Graphics

Location: Newark, New Jersey

Market Segment: Transportation

DESCRIPTION

This Port Authority of New York and New Jersey project required 25,000 square feet of metal mesh with an etched wave pattern for perimeter fencing around a transformer station. Despite its graceful design, the metal fabric is highly resilient, withstanding adverse weather and deterring vandalism.
