Weaves: Escale 7×1

Attachment: Eyebolts

Architect: Dominique Perrault Architecture

Application: Facades, Solar Control

Location: Paris, France

Market Segment: Municipal

DESCRIPTION

The transformation of the Porte de Versailles exhibition center involved five premier French architects. For the central design element of the largest pavilion, Dominique Perrault designed a 790-foot-long by 65-foot-high metal mesh facade to create a gallery where visitors can stroll the length of the pavilion.
