metalfabrics@gkd-group.com

Weaves: Omega 1510

Attachment: Extended Loops with Hook Brackets

Architect: DLR Group

Application: Communication, Solar Control

Subsection: Etched Graphics

Location: Salina, Kansas

Market Segment: Education

DESCRIPTION

When designing an improved main entrance to the school, DLR Group wanted to preserve the open courtyard in the front of the school. The design solution was to use GKD metal fabric as transparent signage that allows the school to showcase its brand without closing off the courtyard from the outside.
