metalfabrics@gkdusa.com

Weaves: Omega 1520

Attachment: Woven-In-Bar Hook Brackets &
Eyebolts, Extended Loops with Hook
Brackets

Architect: NBBJ

Application: Facades, Parking

Subsection: Etched Graphics

Location: San Jose, California

Market Segment: Corporate

DESCRIPTION

With the parking garage of Samsung's Silicon Valley headquarters constantly exposed to the California sun, NBBJ selected Omega 1520 architectural mesh to shade, ventilate and secure the building. Custom printing reminiscent of a circuit board underscores the tech giant's corporate identity.
