metalfabrics@gkdusa.com

Weaves: Mediamesh V6xH5.0

Attachment: Woven-In-Bar with Eyebolts Top & Bottom

Architect: KnotFlad Architects/Ennead Architects

Application: Communication

Subsection: Mediamesh

Location: Stanford, California

Market Segment: Education

DESCRIPTION

The Bass Biology Research Building stands as the new cornerstone of Stanford's quad. To emphasize science through storytelling, Knot created a first-of-its-kind, interactive public art piece called Morphogenesis, where biological images of scientific composition are prominently displayed on a GKD Mediamesh screen.
