

North American Headquarters GKD Metal Fabrics 825 Chesapeake Drive Cambridge, MD 21613 Direct: 410.901.8428 or 410.901.8429 metalfabrics@gkd-group.com

DESCRIPTION

In this GKD exclusive attachment method, the metal fabric ends terminate within cylindrical shrouds after passing through a defined envelope. This masks the hardware within the cylinder while a bar permanently secures the fabric. In the StealthLok[™] Sprung system, tensioning is accomplished with a hidden spring system at the bottom.

METAL FABRICS

Chesapeake

APPLICATIONS

Etched Graphics, Facades, Parking, Solar Control
