METAL FABRICS

Chesapeake, Helix 12, Helix 24, Helix 36, Helix 48,
Helix 72, Lago, Lamelle

APPLICATIONS

Railing, Etched Graphics, Facades, Parking, Solar
Control

DESCRIPTION

In the StealthLok™ system, a GKD exclusive attachment method, the metal fabric ends terminate within cylindrical shrouds after passing through a defined envelope. This masks the hardware within the cylinder while a bar permanently secures the fabric. Tensioning is accomplished mechanically from the bottom brackets.
