metalfabrics@gkdusa.com

Weaves: Tigris

Attachment: Woven-In-Bar with Eyebolts Top &
Bottom

Architect: Rolfe Judd Architecture

Application: Facades

Location: London, UK

Market Segment: Stadium

DESCRIPTION

When choosing a facade material for the latest renovation of this world-renowned cricket stadium, Rolfe Judd Architects specified 5,600 square feet of GKD Tigris metal mesh. With a gold-coated weft wire, the metal fabric encircles the stadium, serving as both fall guard protection and as a net to catch stray balls.
