Weaves: Omega 1520

Attachment: Flats with Clevis

Architect: BEMV Architects

Application: Communication, Solar Control

Subsection: Etched Graphics

Location: Freiburg, Germany

Market Segment: Healthcare

DESCRIPTION

For this medical facility, custom etching creates the peaceful outline of trees onto GKD Omega 1520 metal fabric. In addition to creating a calm motif for patients, the metal mesh facade provides sunshading and privacy while still allowing natural light into the building.
