Weaves: Sambesi PC, Sambesi
Attachment: Flats with Clevis
Architect: Baurconsult Architects
Application: Facades, Solar Control
Location: Schweinfurt, Germany
Market Segment: Municipal

DESCRIPTION

In the process of remodeling an old production hall, the architects at Baurconsult chose to clad the entire complex in Sambesi metallic mesh from GKD. The semi-transparent facade underlines the character of the exhibition serving as both cladding and stable perimeter fencing for the premises.
